Internship Opportunity: Full-Stack App Developer (React Native – Android & iOS)
Duration: 2 months
Location: Remote
Certificate: Provided upon successful completion

Location: Remote

About the Role:
We are seeking a talented and versatile **Full Stack Developer** *to join our team and lead the end-to-end development of our next-generation mobile application. You will be responsible for designing, building, and maintaining both the front-end and back-end components, ensuring seamless user experiences and robust, scalable architecture. This role requires a hands-on developer with a passion for delivering high-quality, secure, and innovative solutions.*

Key Responsibilities

- **Front-End Development:**
  Design and implement intuitive, responsive mobile interfaces using modern frameworks (e.g., React Native, Flutter, or Swift/Kotlin).

- **Back-End Development:**
  Build and maintain scalable APIs and microservices, integrating with databases and third-party services (Node.js, Python, Java, or similar).

- **Wireframing & Prototyping:**
  Collaborate with designers and stakeholders to create wireframes, prototypes, and user flows that translate business requirements into technical solutions.

- **Cloud Technologies:**
  Deploy and manage applications on cloud platforms (AWS or GCP), utilizing serverless architectures, containers, and managed services as appropriate.

- **Automation:**
  Implement CI/CD pipelines, automated testing, and deployment strategies to ensure rapid, reliable releases.

- **Collaboration:**
  Work cross-functionally with team to deliver features from concept to launch.

- **Documentation:**
  Maintain clear and comprehensive technical documentation for code, APIs, and infrastructure.

Preferred Experience

- **Compliance (Good to Have):**
  Experience developing applications in regulated environments (e.g., PCI, HIPAA, SOC2) and implementing security and privacy best practices.

- **Machine Learning (Nice to Have):**
  Exposure to integrating machine learning models or working with ML APIs to enhance app functionality.

Qualifications

- *1+ years of experience as a full stack developer, with a strong portfolio of mobile apps.*

- *Proficiency in at least one mobile front-end framework and one back-end language.*

- *Hands-on experience with cloud infrastructure and automation tools.*

- *Strong understanding of RESTful APIs, authentication, and security.*

- *Excellent problem-solving, communication, and teamwork skills.*

- *Pursuing Bachelor's degree in Computer Science or related field (or equivalent experience).*

If you are passionate about building impactful mobile applications and thrive in a fast-paced, collaborative environment, we'd love to hear from you!

Perks

•Internship completion certificate •Hands-on experience in full-stack mobile app development •Stipend: Range ₹15,000 to ₹35,000 Our salary ranges are determined by experience and location. The range displayed on each job posting reflects the minimum and maximum target for intern salaries for the position across all locations. Within the range, individual pay is determined by work location and additional factors, including job-related skills, experience, and relevant education or training.
